Subject: RoHS Declaration Sheet

The laminations, GFCI cores and ferrite cores supplied by Magnetic Metals Corp, Camden Division, do not contain the substances called out in the RoHS Directive for banned materials. These materials include:

- Cadmium (Cd)
- Mercury (Hg)
- Lead (Pb)
- Hexavalent Chromium / Chromium VI (Cr, Hexavalent Chromium)
- Polybrominated Biphenyls (PBBs)
- Polybrominated Diphenyl Ethers (PBDEs)

Additionally, there are no tools, fixtures or other equipment in the manufacturing process that contains these materials.

If there are any further questions or clarifications, please feel free to contact me.

Sincerely,

Sean Grealis
